Purple Mash Competition

Dear Parents

We are delighted to share a fun opportunity for our children to showcase their artistic talents.

About the Competition:

Our school is participating in the Purple Mash 'Fruities and Veggies' Competition, where children can design their own house for their chosen fruit or vegetable to live. This can be completed by following the link on Purple Mash. Purple Mash, by 2Simple, is a fantastic educational platform that our children engage with regularly, and we believe this competition is a unique opportunity for them to leave their creative imprint on this widely used resource.

Why Your Child Should Participate:

- Creative Expression: This competition encourages our students to let their imaginations soar and express themselves creatively. It's a chance for them to showcase their unique perspective and artistic skills.
- Exciting Prize: There shall be three winners, chosen from across all the schools that participate. The winning designs will be used and published in the first ever 'Fruities and Veggies' storybook, due to come out in Summer 2025!

How to Participate:

- Using the link on Purple Mash, children can submit their designs on the 'Fruities and Veggies' Display Boards. They can work on their masterpieces as much as they like before hitting submit, so there's no rush to finish until it's just right!

- Children will need to have submitted their artwork **by 7th March** to be in with a chance of winning. Please do NOT include any personal details, as these cannot be posted to the public display boards.

Thank you for your continued support in nurturing our childrens' creativity.

Yours sincerely,

Mr Jones

(Computing Lead)
