Monday 10th March

STEM Experience at Codsall Middle School on Thursday 13th March

Dear Parents/Carers,

I am writing to inform you of an exciting STEM session at Codsall Middle School as part of our Science Week at Birches First School.

On Thursday 13th March, there will be a STEM session at Codsall Middle School. Our children will be welcomed to Codsall Middle School (CMS) and will learn within specialist Science laboratories, where there will be a carousel of activities, focussing on how scientists use materials for different purposes, including for UV protection from the sunlight.

These sessions will be led by Year 8 STEM Ambassadors and staff at Codsall Middle School, with Birches First School and St Nicholas children and staff all getting involved! We believe this is a lovely way of practicing Science in a specialised learning environment and a superb way for the children to get familiar with both a local Middle School and children from another First School.

Please could you send your child in with a packed lunch on this day, as lunch times may differ, due to the timings of the children's activities. Please also ensure your child has suitable school shoes and coats for the walk.

Thank you for your continued support!

Best wishes,

Mr. Piggott
